

# FISHSTICKS

**One-of-a-kind handmade driftwood fish sculptures by East Lyme artist Larry C. Ayer**

Selected pieces of driftwood from area beaches and islands make up these fish sculptures. Each piece is assembled with screws, tacks and glue for a lifetime of beauty. Display above your fireplace or any place in your home. Some have native scallop shells to simulate fish scales. With prices ranging from only \$400 to \$775, they are surely a great catch!
